Education

Universidad Nacional Abierta y a Distancia

Cúcuta, CO

Systems Engineering

Feb 2025 – Present (Expected Jul 2027)

Servicio Nacional de Aprendizaje

Cúcuta, CO

Associate's Degree in Software Analysis and Development

Apr 2022 – Jul 2024

Experience

Tres Pi Medios

Remote

Full-stack Developer | *Express.js, PostgreSQL, React, TypeScript, Docker, Azure, AWS, GCP, MongoDB*

Jul 2024 – Present

- **Developed and deployed** a tool loan and repair management platform for Stanley Black & Decker (Italy), cutting task completion time by 50% and boosting operational efficiency.
- **Implemented an Azure cloud function** integrating a generative AI model to automate Zendesk responses for Stanley Black & Decker's U.S. customers.
- **Deployed two Express.js applications to AWS** (ECS & EC2) via CI/CD pipelines, collaborating closely with DevOps teams.
- **Built an Express.js service to stream real-time data into Power BI** dashboards, improving monitoring and reporting.
- **Delivered full-stack i18n** for Stanley Black & Decker's apps in Italy and the Middle East, enabling seamless Italian/English support.
- **Migrated customer service backend** to a serverless architecture in Zendesk, decommissioning four legacy services and reducing cloud resource consumption.

SuperGIROS

Cúcuta, CO

Full-stack Developer Intern | *Java, Spring Boot, Angular, React.js, SQL, Docker*

May 2023 – Jul 2024

- **Developed internal administrative software** that streamlined processes in the company's management zone, boosting operational efficiency by **30%**.
- **Built a reporting system for nationwide lottery results**, enabling faster distribution of information across branches and reducing manual workload.
- **Enhanced the corporate intranet** by delivering new modules and features, which increased employee adoption and satisfaction by **70%**.
- **Implemented a Spring Boot + Docker microservices architecture**, improving scalability and maintainability.
- **Optimized legacy systems** through refactoring and query tuning, reducing processing time by 45%.

Skills & Interests

Technical Skills:

- **Back End:** Node.js, Express.js, Spring Boot
- **Front End:** React.js, Next.js, Tailwind, HTML, CSS
- **Programming:** Java, TypeScript, JavaScript
- **Databases:** PostgreSQL, MongoDB, MySQL, Oracle SQL
- **Cloud Platforms:** AWS, Azure, GCP
- **DevOps & Tools:** Docker, Linux, CI/CD, Git, GitHub
- **Other:** REST APIs, Sequelize, Power BI, Jira, Clean Architecture

Languages:

- English – Professional Proficiency (B2+)
- Spanish (Native)
